## GENERAL TERMS AND CONDITIONS

(March 2022)

### Article 1 GENERAL

**1.1** CROATIAN REGISTER OF SHIPPING (hereinafter: the *Register*) shall at all times remain an independent contractor and neither the *Register* nor any of its officers, surveyors, auditors, inspectors, agents, appointers, officers or managers shall act as an employee, servant or agent of any other party in the performance of the Services rendered by the *Register*.

**1.2** The *Register* acts as a service provider. The Services provided by the *Register* cannot be construed as a commitment by the *Register* to achieve any result or as a warranty.

**1.3** The provision of Services is subject to these General Terms and Conditions. No other terms and conditions shall apply, either expressly or by implication, unless expressly agreed in writing between the Parties.

**1.4** These General Terms and Conditions shall be incorporated into, or referred to in any Contract and shall prevail over and exclude any other terms and conditions that the Client may wish to impose.

Any amendments to and/or deviations from these General Terms and Conditions, as well as any additional terms and conditions of the Client, shall be binding or valid only if set forth in writing and duly signed by the authorised representatives of both Parties.

**1.5** The invalidity of one or more provisions of these General Terms and Conditions shall not affect the remaining provisions.

**1.6** The Client acknowledges that the latest version of these General terms and Conditions and the latest version of applicable Rules apply to the Services provided by the *Register*.

**1.7** Definitions in these General Terms and Conditions take precedence over other definitions that may appear in other documents issued by the *Register*.

**1.8** The Client should at all times be aware of the provisions of these General Terms and Conditions, as they may be further amended, with their latest up to date version available on the web site of the *Register*.

### Article 2 DEFINITIONS

**2.1** **Certificate** means either a class certificate or statutory certificate, statement, attestation, statement of compliance, and a report following the Services provided by the *Register*.

**2.2** **Certification** means the activity of certification in application of international and national standards and international industry practice provided by the *Register*.

Certification is an appraisal given by the *Register* to the Client and cannot be construed as an implied or express warranty of safety, fitness for purpose, seaworthiness of the vessel or its value for sale, insurance or chartering.

The purpose of Certification is to provide classification and statutory services and assistance to the maritime industry, Flag State Administrations, and regulatory authorities relating to maritime safety and pollution prevention.

**2.3** **Classification** includes all activities and Services provided by the *Register* in accordance with the Rules. Classification may or may not be accompanied by the issuance of a Certificate of class with reference to the Rules.

Certificate of class is valid only if issued by the *Register*.

However, Certificate of class should not be construed as a guarantee of the safety, fitness for purpose or seaworthiness of the vessel. It is merely an attestation that the vessel complies with the Rules developed and published by the *Register*.

In addition, the *Register* is not a guarantee of the safety of life or property at sea or the seaworthiness of a vessel because, although the classification of a vessel is based on the assumption that the vessel will be properly loaded, operated, and maintained by competent and qualified personnel, the *Register* has no control over how a vessel is operated and maintained between the periodic surveys it conducts.

**2.4** **Statutory certification** means certification made by the *Register* on behalf of the Flag State Administrations when and to the extent that the *Register* has been authorised to do so by the respective Flag State.

Statutory certification and services include the assessment of vessels registered by the Flag State and/or ship management companies to determine whether such ships/companies comply with the applicable requirements of international conventions, codes and national legislation, and the issuance of, or assistance in the issuance of, the appropriate certificates and documents.

Statutory certification includes, but is not limited to, certification, survey, and issuance of statutory certificates on behalf of the Flag State.

In cases where the *Register* acts on behalf of Flag State Administrations, the *Register* shall follow guidance issued by IMO (Resolutions, Circulars, etc.) or by IACS through Unified Interpretations (UI), unless otherwise directed by the Flag State.

**2.5** **Client** means the shipowner, company, shipyard and/or party requesting Services or taking ownership of a classed vessel. In cases where shipowners have authorized another party to operate the vessel on their behalf, that party shall be considered as the company.

In addition to the above the Client means the person and/or entity that has requested Services from the *Register* and that has entered into a Contract or an agreement for Services with the *Register*.

**2.6** **Parties** means the *Register* and Client together.

**2.7** **Party** means the *Register* or the Client.

**2.8** **Contract** means the contract in the form of a written agreement between the Client and the *Register* requesting Services, including these General Terms and Conditions and the Rules.

The provisions related to the Contract in these General Terms and Conditions shall apply even if there is no written agreement between the Client and the *Register*.

The Client may request the *Register* in writing to make a change to the contracted Services. However, the *Register* shall not be obligated to accept or execute any such change until a written agreement has been signed with the Client regarding the compensation and the possible impact of the change on the schedule as an addendum to the originally contracted Services.

**2.9** **Services** shall mean the services specified in 2.2, 2.3 and 2.4, but also other services related to certification, classification and statutory certification, such as, but not limited to: ISM Code certification, ISPS Code, MLC 2006 certification, fuel oil consumption reporting, IHM certification, approval of manufacturers and service providers, certification of materials and products, training activities, conformity assessment, and any other relevant activities such as third party inspections, testing, shore and shipboard trials.

The Services provided by the *Register* are performed on a random basis and in no case include a full inspection of all items.

The *Register* shall provide the Services in accordance with related Contract(s), the provisions of these General Terms and Conditions, Rules, the international and national standards, the international conventions, the EU Regulations, the Flag State requirements and the industry practices applicable to the particular Service and always assuming that the Client is aware of these standards and the industry practices.

When providing Services, the *Register* does not guarantee the accuracy of the information or advice provided.

In providing Services, the *Register* does not assess compliance with standards other than the Rules, international and national standards, international conventions, EU regulations, Flag State requirements and industry practice, to the extent agreed in writing or specified in the Contract.

**2.10** The *Register* means the Croatian Register of Shipping, an entity organized and existing under Croatian law, which, according to the Law on the Croatian Register of Shipping (Official Gazette No. 1996/81, 2013/76 and 2020/62) and the Charter of the *Register*, is an independent, not-for-profit, but public welfare oriented, public foundation that performs tasks:

**2.11** **Vessel** means a ship, vessel, unit or offshore structure of any kind, whether or not connected to the shore or sea/river bed, located at sea or in inland waters and intended for transportation or special operations on the water, as decided by the *Register*.

**2.12** **Rules** means the Rules for the classification, guidelines, instructions, or other documented evidence of the *Register* related to the Services provided.

The competent interpretation of the requirements specified in the Rules or other regulations published by the *Register* shall be the exclusive responsibility of the *Register's* Head Office, notwithstanding any possible different interpretations by other parties.

In cases where the Rules do not contain detailed requirements, the specific approval by the *Register* shall be based on the principles of the Rules and shall ensure a safety standard equivalent to that of the Rules.

### Article 3 RESPONSIBILITIES

**3.1** It is the Client's responsibility to ensure that all surveys required for vessel's class maintenance are conducted in a timely manner and in accordance with the Rules.

**3.2** The *Register* may suspend or withdraw the vessel's existing Certificate of class in the event of serious deficiencies and replace it with a new Certificate of class with a shortened period of validity during which the deficiencies are to be rectified.

In addition, the *Register* shall suspend or withdraw a vessel's Certificate of class if the deficiencies are of such a magnitude as to endanger the class of the vessel, its safety and integrity, the safety of the crew, passengers, or the marine environment, and shall require that the vessel is to be inspected at the first port of call where the necessary repairs are to be carried out.

## 2 SUBDIVISION AND DAMAGE STABILITY OF PASSENGER SHIPS AND CARGO SHIPS

■ **Head 2.10 – SYSTEM CAPABILITIES AND OPERATIONAL INFORMATION AFTER A FLOODING CASUALTY ON PASSENGER SHIPS**, item 2.10.3 has been changed and should be read as follows:

### 2.10.3 Operational information after a flooding casualty

For the purpose of providing operational information to the Master for safe return to port after a flooding casualty, passenger ships, as specified in 2.10.1, shall have:

- .1 an onboard stability computer; or;
- .2 shore-based support,

based on the guidelines developed by IMO.

■ **Section 3**, Title of the Section has been changed and should be read as follows:

### **3 SPECIFIC STABILITY REQUIREMENTS FOR RO-RO PASSENGER SHIPS TO WHICH DIRECTIVE 2009/45/EC, AS AMENDED BY DIRECTIVE (EU) 2023/946 APPLIES**

■ **Head 3.1 – GENERAL**, has been changed and should be read as follows:

#### **3.1.1 Purpose**

The purpose of this Section is to lay down a uniform level of specific stability requirements for ro-ro passenger ships, which will improve the survivability of this type of vessel in case of collision damage and provide a high level of safety for the passengers and the crew, according to Directive (EU) 2023/946 of the European Parliament and of the Council of 10 May 2023 amending Directive 2003/25/EC as regards the inclusion of improved stability requirements and the alignment of that Directive with the stability requirements defined by the International Maritime Organization.

#### **3.1.2 Definitions**

- ...
- .3 **existing ro-ro passenger ship** means a ro-ro passenger ship the keel of which is laid or which is at a similar stage of construction before 5 December 2024; a similar stage of construction means the stage at which:
    - (i) construction identifiable with a specific ship begins; and
    - (ii) assembly of that ship has commenced comprising at least 50 tonnes or 1 % of the estimated mass of structural material, whichever is less;
  - .4 **new ro-ro passenger ship** means a ro-ro passenger ship which is not an existing ro-ro passenger ship;
  - .5 **SOLAS Convention** means the 1974 International Convention for the Safety of Life at Sea and amendments thereto in force;
    - (i) 'SOLAS 90' means the 1974 International Convention for the Safety of Life at Sea, as last amended by Resolution MSC.117(74);
    - (ii) 'SOLAS 2009' means the 1974 International Convention for the Safety of Life at Sea, as last amended by Resolution MSC.216(82);
    - (iii) 'SOLAS 2020' means the 1974 International Convention for the Safety of Life at Sea, as last amended by Resolution MSC.421(98);
  - .6 **regular service** means a series of ro-ro passenger ship crossings operated so as to serve traffic between the same two or more ports, or a series of voyages from and to the same port without intermediate calls, either:
    - (i) according to a published timetable; or
    - (ii) with crossings so regular or frequent that they constitute a recognisable systematic series;
  - .7 **Stockholm Agreement** means the Agreement concluded at Stockholm on 28 February 1996 in pursuance of SOLAS 95 Conference Resolution 14 'Regional agreements on specific stability requirements for ro-ro passenger ships', adopted on 29 November 1995;
  - .8 **administration of flag State** means the competent authorities of the State whose flag the ro-ro passenger ship is entitled to fly;
  - .9 **international voyage** means a sea voyage from a port of a EU Member State to a port outside that Member State, or vice versa;
  - .10 **specific stability requirements** means, when used as a collective term, the stability requirements set out in 3.1.6;
  - .11 **significant wave height (hs)** is the average height of the highest third of wave heights observed over a given period;
  - .12 **residual freeboard (fr)** is the minimum distance between the damaged ro-ro deck and the final waterline at the location of the damage, without taking into account the additional effect of the sea water accumulated on the damaged ro-ro deck;
  - .13 **barriers** means the bulkheads not extending in vertical direction to the level of the deck above, thus not preventing progressive flooding to occur through the gap between the deck and the upper end of the bulkhead when the level of accumulated water in damaged compartment reach the height of the bulkhead;
  - .14 **Company** means the owner of a ro-ro passenger ship or any other organisation or person, such as the manager or the bareboat charterer, who has assumed responsibility for operating the passenger ship from the owner.

...

#### **3.1.5 Significant wave heights and sea areas**

- .1 The significant wave heights (hs) shall be used for determining the height of water on the car deck when applying the specific stability requirements contained in Head 3.2 or 3.3. The figures of significant wave heights shall be those which are not exceeded by a probability of more than 10 % on a yearly basis.

**PART 5**

AMENDMENTS No. 4

**3.1.6 Specific stability requirements**

- .1 Without prejudice to the application of Directive 2009/45/EC of the European Parliament and of the Council, new ro-ro passenger ships certified to carry more than 1350 persons on board shall comply with the specific stability requirements set out in Section 2 of this Part of *the Rules*.
